The reason for the outage is for **Erongo RED** to conduct SCADA point to point testing.

Erongo RED will conduct point-to-point signal testing as part of Phase 2 of its SCADA project, which will integrate eleven (11) new substations into the SCADA network. The testing forms part of the commissioning process and is intended to verify reliable communication between the SCADA system and field equipment. SCADA will enable real-time monitoring and remote control of the network, supporting faster fault detection, quicker restoration of power supply, and improved network reliability. Testing will be conducted in accordance with the schedules above. Customers are requested to take note of the applicable outage times in their respective areas.

PLEASE NOTE:

YOUR INSTALLATION MUST BE REGARDED AS “LIVE” AT ALL TIMES AS THE POWER SUPPLY MAY BE SWITCHED ON AT ANY TIME DURING THE ABOVE MENTIONED PERIOD.
